# Alex Burgos

## Profile:

Front End Engineer for 8 years. Looking for a growth-minded, collaborative work environment and an engineering culture that is based on inclusion, trust, and knowledge sharing.

## Skillset:

React, Redux, Relay, Typescript, Jest, Cypress, CSS, Node/Express, Next , Kubernetes, Styled Components

## Experience:

**Kiwicom — Senior Software Engineer — Barcelona — 2022 - Present**
- Worked closely with designers and analytics to improve the Account page of Kiwi.com by releasing new features that made the experience of our users better, working with a React/Relay/Next stack.
- Upgraded our tech stack, making the site more performant.

**Smartly Oy — Senior Software Engineer — Helsinki — 2020 - 2022**
- Developed new product features that were crucial to meeting our team and company OKRs.
- Mentored junior developers through knowledge sharing of our shared services, redux architecture.
- Contributed to design system components, optimised the performance and tests of our app.

**Schibsted Media - Software Engineer — Stockholm — 2020**
- Responsible for improving a major Swedish news website by implementing redesigns, improving site reliability, increasing our user subscriptions.
- Worked with React on top of a custom CMS and a Node client to fetch content.

**Food52 - Software Engineer — New York — 2017 - 2019**
- Contributed to growing our traffic and consumer base, developed new features, and improved our internal CMS and e-commerce tools built on React and Rails.
- Refactored front end code from Knockout.js to React and Redux. Built a new cart and checkout experience that was optimised for mobile users and implemented third party payment tools.

**Wyng - Front End Developer — New York — 2015 - 2017**
- Built micro-sites, email templates, and custom landing pages that hosted our User Generated Content tools.

**Time, Inc - Front End Developer — New York — 2014 - 2015**

- Built new templates and improved features on the Time magazine website that was built using Marionette/Backbone.js on top of Wordpress for content management.

**Binghamton University (New York) — Bachelors of Science in Computer Engineering — 2013**
